## Installation & Service

Service and installation is carried out by our factory trained engineers and is nationwide.

This machine is self install. Can be manually filled with water or connected to the mains supply.

There is an initial 12 Months Warranty on Parts. After this period a charge for parts will be made if they are required.

Call out charge is £75.00 plus Vat. There is not an extra charge for time spent on site, no matter how long the engineer is in attendance. Our engineers are fully trained and have many years of experience; therefore time spent repairing a machine is kept to the absolute minimum. Should your machine develop a problem we can very often resolve it over the telephone, thus eliminating the call out charge altogether.
